

# Modern Billing, Powered by Gotransverse

**Built for Speed  
Trusted for Scale**

**Empower your business with  
agile, intelligent billing.**

## The GT Billing Engine

### PRODUCT CATALOG

Configure ANY product to support hybrid, usage-based, and traditional monetization models.

### USAGE RATING & MEDIATION

Handle high-volume usage with precision and flexibility.

### BILLING & INVOICING

Automate billing cycles, proration, adjustments, and invoicing at scale.

### PAYMENT & COLLECTIONS

Automate collections with retries and dunning; connect seamlessly to multiple global payment gateways.

### REVENUE RECOGNITION

Comply with ASC 606 using rule-based revenue allocation.

### ACCOUNT HIERARCHIES

Manage complex account and contract relationships with confidence.

## Purpose-built for billing complexity— without compromise.

### Flexible & Scalable

Adapts to any pricing model—subscription, usage-based, tiered, hybrid, or custom—at scale.

### Seamless Ecosystem Integration

Connect effortlessly with your tech stack: ERP, CRM, CPQ, tax, and payment systems for true end-to-end efficiency.

### Enterprise-Grade Performance

Designed for global operations with multi-currency, multi-entity, and high-volume usage support.

### Built for Compliance & Trust

SOC 1 & 2 certified, PCI-DSS compliant, and fully aligned with GDPR and ASC 606 standards.
